

TOTAL SOLUTION PROVIDER  
FOR INJECTION MOULDS  
AND PLASTIC COMPONENTS

*Where Ideas  
Take Shape*

Established in 2019,

***Mouldpoint*** Pvt. Ltd. is one of quality Tool making company which is mainly specializes in Making Injection moulds and Engineering Assemblies.

We have experienced design team and professional engineering team.

We ensure on time delivery with pretty competitive price.

## ■ MISSION

Making high quality precision tools and parts with competitive price, and providing good service to meet our customers demands.

## ■ VISION

To be total solutions global provider for Moulds, Press tools and components.

## ■ OUR PROMISES

We would never sacrifice product quality for the lower prices.  
We will keep you fully informed by providing processing progress reports and digital pictures weekly.

# What We Do

**Injection Moulds**

**Mouldbases**

**Tool Maintenance**

**Tool Design**

**Production**

**Press Tools**

**Tool Modification**

**Job Work**

- **VMC M/c 1**

Vertical Machining Centre  
Make-Excel, Singapore  
Bed Size- 700x550  
Weight Capacity-1ton  
Quantity-1

- **VMC M/c 2**

Vertical Machining Centre  
Make-BFW  
Bed Size- 1500x700  
Weight Capacity-1.5 ton  
Quantity-1

\*\*Booked in Mar-21  
To be installed on June last Week

- **CNC Wirecut**

Ecocut

Make-Electronica, Pune

Bed Size- 450x350

Weight Capacity-1 ton

Quantity-1

- EDM Discharge

S35

Make-Sparkonix, Pune

Bed Size- 450x350

Weight Capacity-1 ton

Quantity-1

# In-house Tool Room Facilities List

MC. NO.	Machine Type	Specification(mm)	Make
01	CNC Wirecut	450x350	Electronica
02	VMC MC1	700x550	Excel
03	VMC MC2	1500x700	BFW
04	EDM Sparking	450x350	Sparkonix
05	Surface Grinder	550x300	Chevalier
06	M1TR	1200x600	HMT
07	Milling	800x500	Mass
08	Pillar Drill	38mm	Eiffco
09	Tool & Cutter Grinder	(US Made)	Clarkson
10	Lathe	6ft	Minar
11	Pillar Drill	25mm	K.M. Panchal
12	Power Hacksaw	D300mm	Eiffco

# In-house Moulding Facilities List

MC. NO.	TONNAGE	MAKE	TIE BAR DISTANCE(mm)	Shot Weight (gms)	QTY	REMARK
01	200T	L&T	460X460	380	1	Horizontal
02	150T	L&T	410x410	260	1	Horizontal
03	80T	Saba	280x180	100	1	Vertical

# Quality Control

As an ISO 9001-2015,certified company, we take the high quality as a base for the company's development, from incoming material to electrode, from CNC machining to final assembly, every component and every process needs to be strictly inspected by QC, to ensure every component is accepted before the next process.

# In-house Inspection Facility

No.	Machine Type	Specification(mm)	Make
01	Digital Height Master 2D	450mm	Electronica
02	Surface Table	1000x1000	Luthra
03	Digital Height Guage	600mm	Mitutoyo
04	Angle Plate	800x350	Apex
05	Bore Guage Set	18mm to 160mm	Insize
06	Micrometer set	0 to 100mm	Mitutoyo
07	Digital Vernier	Upto 300mm	Insize
08	Dial Vernier	Upto 300mm	Insize

# Material Handling Facility

## Chain Pulley Box

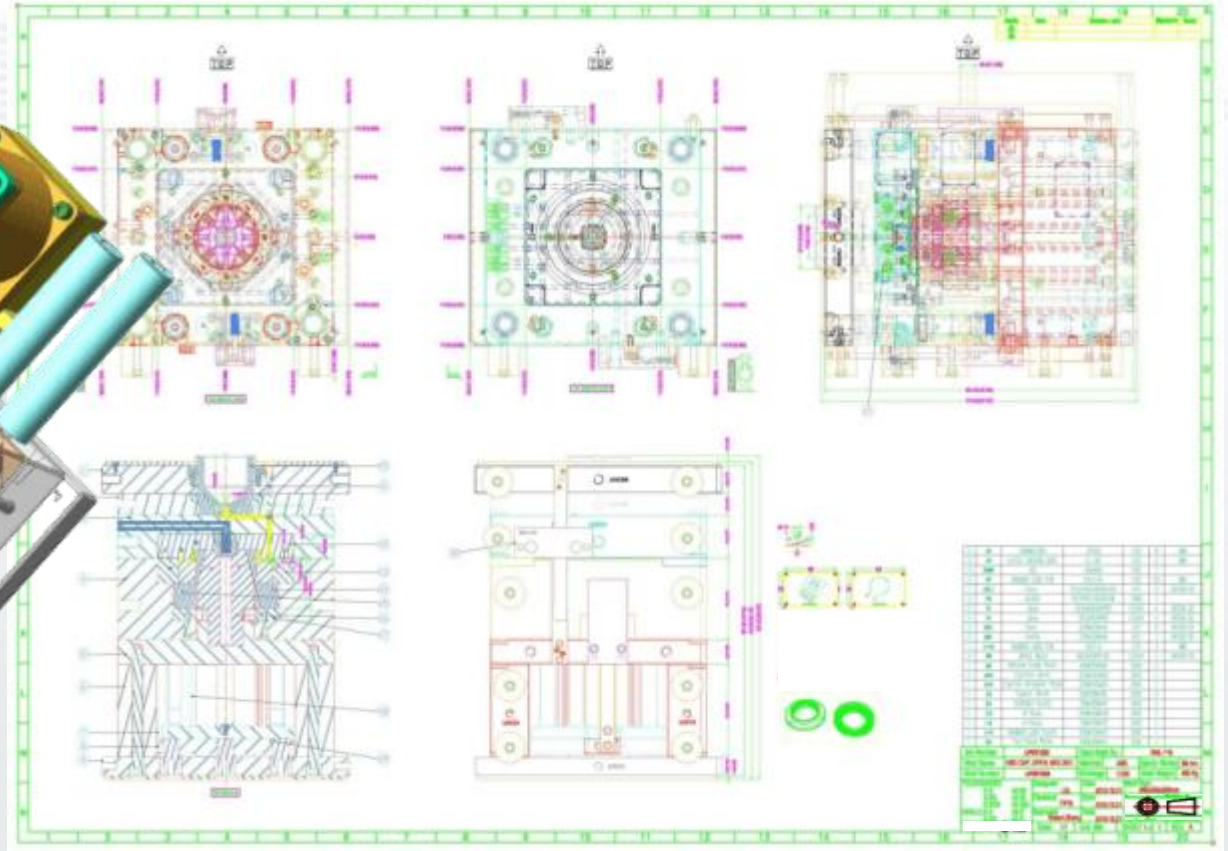

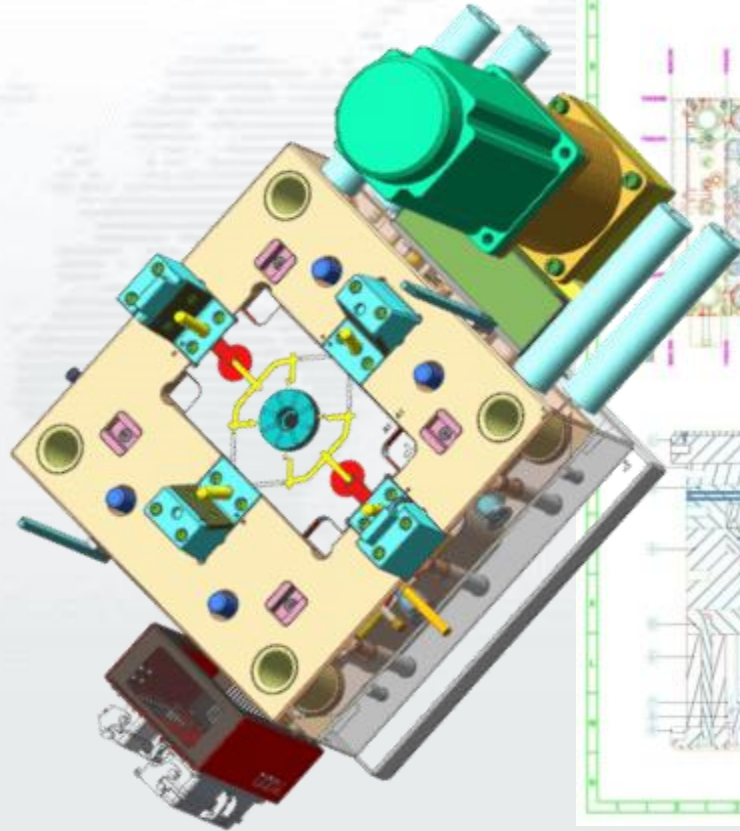

Weight Carrying Capacity  
2 Tons  
Width- 3mtrs  
Height- 4mtrs

## Hydraulic Lifter

Weight Carrying Capacity-  
1.5 Tons  
Height- 1.5mtrs

# Tooling Showcase

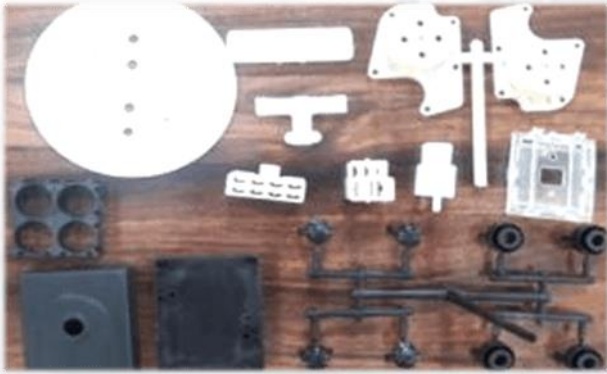

# In-house Developed Major Tools

Sr. No.	Tool Type	Part Name	No. of Cavities	M/C Tonnage	Mould Size	
1.	Injection mould	Back Panel	1	600T	800x1000x470	
2.	Injection mould	Back Mesh	1	450T	720x950x440	
3.	Injection mould	Side Panel	1	450T	690x810x330	
4.	Injection mould	Bubble Cap	16	180T	480x400x420	
5.	Injection mould	Measuring Cap	16	150T	420x350x300	
6.	Injection mould	Push Button	4+4	100T	350x300x250	

# Few In-house Developed Parts

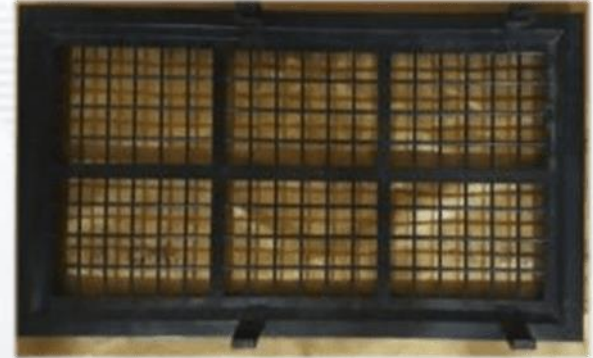

### Engineering Components

### Commodity Components

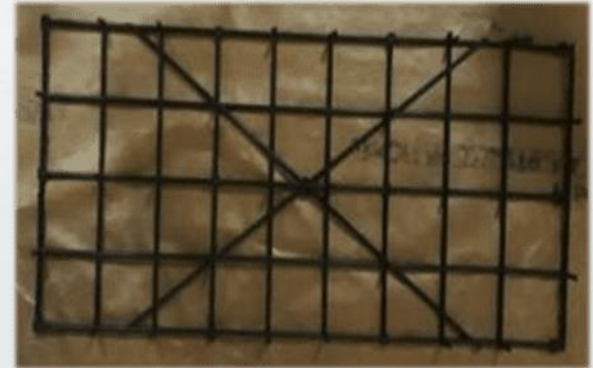

### Side Panel (450x780mm)

### Thin Wall Components

### Back Panel (660x780mm)

### Back Mesh (610x730mm)

## Few In-house Developed Tools

# Major Customers
